The opponents of discussion, those who tell us it is a useless measure, a fire-hrand of Whig mannfacture, are ignorant of the real merits o

the question, otherwise they are advocates of dave extension. We esa view them in no other light. There are these who consider the success of the Democratic party in 1848, with slavery extension, as more desirable than a defeat sccompanied with the preservation of Freedom in such territory as we may acquire. We sre not of this class of politicians. But looking more-iv to a victory in 1848; considering that paramount to the principle involved in the Provise. we shenid most certainly take ear stand in favor of Freedem. With Freedem, Free Luber, no degradution of the White Man, of Free White Labor, hy itn contact with siave ishor, in the vast and fertile territory we seek to acquire, inscribed apon our banner, the chances of a victory are far greater than they are should we join issue the bank of sii its gold; we are absolutewith the Whigs, and subject the Democraile party to the odium of being the ndvecates of slave extension.

If we believe it could not exist there, it will be idle to oppose its extension. It is the opponents of the Froviso who say that it cannot exist there; and if they are sincero in the expression of this belief then they ought not to oppose with so much bitterness a mere harmiess declaration of a principle, that if carried out can do no harm, and cannot extend or narrow the limits of slavary.

Again, there are those who broadly deny that there is any power in Congress to create the inment of which, was as follows:—"You numition as the rights of the any territory which may be hereufter acquired or added to this Confederacy.

If this is true there is, also, a manifest impropriety in distracting the Democratic party, or denouncing any of its members, merely because they declare that they are opposed to extending slavery where, es they assert, it cannot exist.

### The Truest Priend. BY CHARLES SWAIN.

There is a friend, a secret friend, In every trial, every grief. To cheer, to counsel, and defend,-Of all we ever had the chief!-A friend, who watching from above, Whene'er in Error's path we trod, Still sought us with reproving love; That friend, that secret friend, is Gop!

There is a friend, a faithful friend, In every chauce and change of fate. Whose boundless love doth solace send, When other friendships come too late! A friend, that when the world deceives, And wearily we onward plod, Still comforts every heart that grieves;

That true, that faithful friend, le Gon! How blest the years of life might flow, In one unchanged, unshaken trust; If men this truth would only know, Aud love his Maker, and be just? Yes, there's a friend, a constant friend. Who ne'er forsakes the lowliest sod,

Breaking your rest, appeals

So doth his song gush free-

Song ever in his heart, though it be sleeping.
